

ECE Ph.D. Program of Work for New Ph.D. Guidelines

ELECTRICAL AND COMPUTER ENGINEERING

The new ECE guidelines for PhD hours (minimum requirements) for students enrolled Fall 2003 and later are:

- At least 30 hours of "regular classroom instruction," all classes at the graduate level
- no individual instruction classes count towards the 30 hours of "regular classroom instruction"
- at least 12 hours of the 30 should be taken in residence at UT-Austin
- 6 hours should be "outside the principal area of study" (no requirement for inside or outside of department; student's qualifying committee will examine appropriateness of courses indicated as "supporting work")
- GPA in each category ("major" and "supporting") should be at least 3.5

MINIMUM requirements:

These constitute MINIMUM requirements; additional requirements, subject to ECE GSC approval, may be imposed by individual tracks (areas). In addition, a PhD qualifying exam committee can elect to require more if they believe it is appropriate for a given student.

ECE Graduate Students Enrolled Spring 2003 or Before:

Please note that any current student (Spring 2003 or earlier enrollment) may chose to use these new guidelines, or at their discretion, may elect to use the old guidelines.

1. _____ 2. _____
 Last Name (Family Name), First Middle Nine-Digit ID #
3. _____ 4. _____ 5. _____
 Previous Degree(s) and Year(s) Awarded Supervising Professor Co-Supervisor
6. _____ 7. Circle Research Area: BME CommNetS CE EA ES MFG PQE SSE
 Date Qualifying Exam Passed
8. E-mail: _____ 8. Phone numbers: _____

MAJOR WORK

Semester & Year Taken	5-Digit Unique #	Dept. & Course #	Official Course Title	Professor	Institution- if not UT-Austin	Letter Grade

SUPPORTING WORK

Semester & Year Taken	5-Digit Unique #	Dept. & Course #	Official Course Title	Professor	Institution- if not UT-Austin	Letter Grade
