Media Center [1]

The University of Texas at Austin's Electrical and Computer Engineering Department (Texas ECE), a leading research and technology education hub, welcomes media inquiries and stands ready to connect the media with subject matter experts, student stories and a responsive liaison for media needs and inquiries.

Media Resources

For specific media inquiries, interviews or quotes, tours and visits, and personal assistance, please contact:

Key Information

- Impact Report [6]
- Research Areas and Faculty Experts [7]
- Undergraduate Students [8]
- Graduate Students [9]
- Alumni [10]
- Industrial Relations [11]
- Cockrell School of Engineering Media Resources [12]

Outreach Initiatives

- Industrial Initiatives [11]
- Connect [13]
- Senior Design [14]
- Integrated MSE Program [15]
Common Acronyms and Terms

- **CSE - Cockrell School of Engineering** [19]
- **Texas ECE - Electrical and Computer Engineering in the CSE** [20]
- **Acoustics -** transducers, atmospheric and underwater acoustics, and noise and vibration control
- **Biomedical -** engineering principles applied to biological or medical problems
- **Computer Architecture -** interface between the hardware and software in computer systems, ranging from supercomputers, servers, desktop computers, notebooks and handheld computers
- **Computer Engineering -** computer architecture, computer systems and networks, theory and design of digital systems, machine learning, and software engineering
- **DICE - Decision, Information, and Communications Engineering** [23]
- **Electromagnetics -** electrical geophysics, antennas and scattering, radar target identification, wireless communications, microwave and millimeter-wave integrated circuits, and guided wave devices and systems
- **Energy Systems -** production, distribution, and use of electric energy
- **Integrated Circuits & Systems -** digital, analog, mixed-signal, and RF CMOS ICs for a variety of applications
- **Manufacturing Systems Engineering -** application of computers, information sciences, and information systems to the development of equipment and software systems for manufacturing
- **Plasma/Quantum Electronics & Optics -** plasma dynamics, optics, quantum-optic and photonic devices, and plasma processing of semiconductors
- **Software Engineering -** architecting, designing, building, testing, analyzing, evaluating, deploying, maintaining and evolving software systems
- **Solid State Electronics -** electronic, optoelectronic and micro- and nano-electromechanical devices
- **WCNG - Wireless Communications & Networking Group** [24]
- **Connect -** talent acquisition
- **IEEE - the Institute of Electrical and Electronics Engineers** [25]
- **STEM -** science, technology, engineering and mathematics disciplines
- **URP -** under represented populations
