Media Center [1]

The University of Texas at Austin's Electrical and Computer Engineering Department (Texas ECE), a leading research and technology education hub, welcomes media inquiries and stands ready to connect the media with subject matter experts, student stories and a responsive liaison for media needs and inquiries.

Media Resources

For specific media inquiries, interviews or quotes, tours and visits, and personal assistance, please contact:

Key Information

- Impact Report [6]
- Research Areas and Faculty Experts [7]
- Undergraduate Students [8]
- Graduate Students [9]
- Alumni [10]
- Industrial Relations [11]
- Cockrell School of Engineering Media Resources [12]

Outreach Initiatives

- Industrial Initiatives [11]
- Connect [13]
- Senior Design [14]
- Integrated MSE Program [15]
• Compass Center [16]
• Research and Emerging Technology Collaboration [7]
• Solar Vehicles Team [17]
• Engineering Education and Research Center (EERC) [18]

Common Acronyms and Terms

• CSE - Cockrell School of Engineering [19]
• Texas ECE - Electrical and Computer Engineering in the CSE [20]
• Acoustics - transducers, atmospheric and underwater acoustics, and noise and vibration control
• Biomedical - engineering principles applied to biological or medical problems
• Computer Architecture - interface between the hardware and software in computer systems, ranging from supercomputers, servers, desktop computers, notebooks and handheld computers
• Computer Engineering - computer architecture, computer systems and networks, theory and design of digital systems, machine learning, and software engineering
• DICE - Decision, Information, and Communications Engineering [23]
• Electromagnetics - electrical geophysics, antennas and scattering, radar target identification, wireless communications, microwave and millimeter-wave integrated circuits, and guided wave devices and systems
• Energy Systems - production, distribution, and use of electric energy
• Integrated Circuits & Systems - digital, analog, mixed-signal, and RF CMOS ICs for a variety of applications
• Manufacturing Systems Engineering - application of computers, information sciences, and information systems to the development of equipment and software systems for manufacturing
• Plasma/Quantum Electronics & Optics - plasma dynamics, optics, quantum-optic and photonic devices, and plasma processing of semiconductors
• Software Engineering - architecting, designing, building, testing, analyzing, evaluating, deploying, maintaining and evolving software systems
• Solid State Electronics - electronic, optoelectronic and micro- and nano-electromechanical devices
• WCNG - Wireless Communications & Networking Group [24]
• Connect - talent acquisition
• IEEE - the Institute of Electrical and Electronics Engineers [25]
• STEM - science, technology, engineering and mathematics disciplines
• URP - under represented populations
