Study Abroad ^[1]

ECE students are encouraged to take advantage of study abroad opportunities. The [International Engineering Education Office](#) ^[2] has more information on study abroad programs that are available for engineering students. Credits earned during study abroad will transfer as in-residence and students will receive a grade to be applied to their GPA. In addition, credits may also be applied towards the Academic Enrichment Technical Area, upon approval from the ECE Undergraduate Office.

For more information, please stop by the IEE Office for a brochure or to discuss your options. You may also schedule an [appointment](#) ^[3] with an ECE advisor to discuss your ECE coursework. Please contact Melissa Sellars at msellars@austin.utexas.edu ^[4] for more information about ECE coursework for study abroad.
