Engineering Education and Research Center (EERC) - ECE's New Home

The Engineering Education and Research Center (EERC) is designed as a state-of-the-art interdisciplinary education and research hub. With 430,000 square feet geared toward interaction, collaborations, and practical hands-on problem-solving lab space, the EERC will change the face of engineering education on campus.

Industry collaborators are in good company as they join other distinguished corporations.
Inside the Engineering Education and Research Center

Opening 2017

To learn more:

- Overview and video

Funding to develop a faculty/graduate student research laboratory for networking and communications

Funding to support individual student project space

Funding to support space for engineering student organizations

Funding to provide a large interdisciplinary space for student projects to promote practice in innovation
• Time lapse video of ENS demolition and EERC construction [3]
• Take a tour inside the EERC [4]
• Naming Opportunities [5]
