## **Interactive Degree Audit**

IDA will allow you to view and request degree audits online, project how future courses might apply toward your degree, and locate advising resources.

Prospective students may use the IDA planner to estimate how courses from other institutions might apply to UT Austin degrees. IDA provides a computer-generated report of your progress toward completion of the requirements for a specific program at UT Austin. If changes to your

record have occurred since your last audit was run, you must create a new audit for those changes to be included.
