Media Center [1]

The University of Texas at Austin's Electrical and Computer Engineering Department (Texas ECE), a leading research and technology education hub, welcomes media inquiries and stands ready to connect the media with subject matter experts, student stories and a responsive liaison for media needs and inquiries.

Media Resources

For specific media inquiries, interviews or quotes, tours and visits, and personal assistance, please contact:

Key Information

- Impact Report [6]
- Research Areas and Faculty Experts [7]
- Undergraduate Students [8]
- Graduate Students [9]
- Alumni [10]
- Industrial Relations [11]
- Cockrell School of Engineering Media Resources [12]

Outreach Initiatives

- Industrial Initiatives [11]
- Connect [13]
- Senior Design [14]
- Integrated MSE Program [15]
Compass Center
Research and Emerging Technology Collaboration
Solar Vehicles Team
Engineering Education and Research Center (EERC)

Common Acronyms and Terms

- CSE - Cockrell School of Engineering
- Texas ECE - Electrical and Computer Engineering in the CSE
- Acoustics - transducers, atmospheric and underwater acoustics, and noise and vibration control
- Biomedical - engineering principles applied to biological or medical problems
- Computer Architecture - interface between the hardware and software in computer systems, ranging from supercomputers, servers, desktop computers, notebooks and handheld computers
- Computer Engineering - computer architecture, computer systems and networks, theory and design of digital systems, machine learning, and software engineering
- DICE - Decision, Information, and Communications Engineering
- Electromagnetics - electrical geophysics, antennas and scattering, radar target identification, wireless communications, microwave and millimeter-wave integrated circuits, and guided wave devices and systems
- Energy Systems - production, distribution, and use of electric energy
- Integrated Circuits & Systems - digital, analog, mixed-signal, and RF CMOS ICs for a variety of applications
- Manufacturing Systems Engineering - application of computers, information sciences, and information systems to the development of equipment and software systems for manufacturing
- Plasma/Quantum Electronics & Optics - plasma dynamics, optics, quantum-optic and photonic devices, and plasma processing of semiconductors
- Software Engineering - architecting, designing, building, testing, analyzing, evaluating, deploying, maintaining and evolving software systems
- Solid State Electronics - electronic, optoelectronic and micro- and nano-electromechanical devices
- WCNG - Wireless Communications & Networking Group
- Connect - talent acquisition
- IEEE - the Institute of Electrical and Electronics Engineers
- STEM - science, technology, engineering and mathematics disciplines
- URP - under represented populations
