Applying for MSEE [1]

Students applying for the MSEE on the UT Campus

If you would like to apply for the UT-ECE Master's program on campus, do NOT select one of the majors labeled as "Online Master's". **Make sure to select the program major by your track choice that is not indicated by "Online Master's" among the major selections.**

You will notice that there is an error in the Education Section of the application form that only allows you to select "Doctoral" as your degree pursuit. **Go ahead and select "Doctoral", even if you are not applying for the PhD.**

**Program Specific Questions**

When you get to the section of the application form labeled "Program Specific Questions", it is here that you will be able to correct your degree pursuit. Question #3 asks you to indicate which degree you are pursuing with three choices that clarify your initial and ultimate degree pursuit:

- MSE only
- MSE and PhD
- PhD only

Students applying for the Online Master's Program

If you would like to apply for the UT-ECE Online Master's Program, you will see that there are several choices for ECE Program majors indicated by "Online Master's".

**Please note that only these 4 choices will be available for the Fall 2017 semester:**

- ECE ? Integrated Circuits (Online Master's)
- ECE ? Software (Online Master's)
- ECE ? ACSES (Online Master's)
- ECE ? DICE (Online Master's)

**Make sure not to select any of the other major choices indicated by "Online Master's".** These study tracks will not be available as part of our online Master's program for Fall 2017.
